- Completed coursework in calculus, linear algebra, and statistics.

EXPERIENCE

Harvard Kennedy School

Research Assistant
Jan 2025 – May 2026 | Cambridge, MA

- Built OCR and data-cleaning workflows to digitize large-scale unstructured Vietnam War archives.
- Designed the front-end database interface and directed external developers, translating design intent into technical specs.

Timeless Labs

Product Marketing Lead
Aug 2021 – May 2022 | Palo Alto, CA

- Launched the startup's visual identity and built its website, translating a technical product into a clear customer-facing narrative.

Hummingbirdsday Design

Digital Product Designer
May 2020 – May 2021 | Santa Monica, CA

- Designed information architecture, user flows, and interactive prototypes for mobile and web products, specializing in AR/VR applications.
